Mr. Ridenour and Ms. Murphy,

As you know, I responded in March, 2017 to a subpoena in the above referenced Fontenot case that the Ada police department informed me they no longer had documents/evidence regarding Mr. Fontenot's case. Recently, the City of Ada received another subpoena regarding Mr. Ward. I again inquired of the Ada Police Department and after searching, some reports/evidence were located. I am now supplementing my response and forwarding the email with attached reports/evidence in the possession of the Ada Police Department which I previously sent to Mr. Barrett and Mr. Haire in response to Mr. Barrett's subpoena in the Ward case. Due to the size of the files, I will be sending another email with attachments.

Additionally, it is my understanding that Mr. Barrett and Mr. Haire are seeking a court order to open/unseal and examine the physical evidence. You may want to contact them regarding that issue.

If you have further questions or desire to discuss further, please contact me.

Mr. Barrett, pursuant to the subpoena to the Ada Police Department and our phone conversations last week, attached are the documents which comply with your subpoena.

Also, as we discussed, we are in possession of a box of 6 sealed envelopes with evidence that appears to have been tested at the lab. I will attach by separate email (this email it to large): (1) pictures of the sealed envelopes, (2) the box holding the envelopes and (3) a letter from the police department when the envelopes were submitted to the lab which describes the envelopes. I'm assuming you have seen or are aware of this evidence. At such time as the parties desire to examine this evidence, and prior to opening, I believe it would be appropriate get both parties and the Court's direction.

Please let me know if you wish to discuss.

Mr. Ridenour and Ms. Murphy,

This is the 2nd email with additional attachments that I mentioned in the previously email.
